EDUCATION

Karpagam Institute of Technology

B.Tech, Artificial Intelligence and Data Science - **CGPA: 8.02/10.00**

2023 – 2027

Coimbatore, India

PROJECTS

MediCare – AI Telemedicine Platform | Django, React, LangGraph, MCP

Sep 2025 - Present

- Developed an **AI-assisted telemedicine system** accessible via a **React web portal** and a **Twilio-based IVR voice agent**, enabling rural users to consult healthcare services without requiring internet literacy.
- Built a **multi-agent orchestration pipeline** using **LangGraph** and the **Model Context Protocol (MCP)** to coordinate LLM reasoning, tool execution, and backend services within a stateful clinical workflow.
- Implemented an **AI clinical triage engine** that extracts symptoms using **Gemini**, computes a **patient urgency score** via a **Logistic Regression model**, and **prioritizes cases while recommending the appropriate medical specialist**.

Faculty Management System | Django REST Framework, MySQL, React

Aug 2025

- Designed a **full-stack academic task management platform** enabling departments to assign, track, and monitor faculty activities through a centralized dashboard.
- Architected a normalized **MySQL database schema** and developed **RESTful APIs** using **Django REST Framework** for task delegation, reporting, and access control.
- Developed a **React-based dashboard** with modular UI components to visualize tasks, reports, and department-level analytics.

AI-Powered Coding Assistant | JavaScript, Gemini API, HTML5, CSS3

Feb 2025

- Developed a **Chrome extension** powered by the **Gemini API** to assist competitive programmers with automated problem analysis and solution guidance.
- Implemented features for **AI-driven problem decomposition**, logical gap detection, and step-by-step reasoning support for coding problems.
- Designed an intuitive browser-based interface used by **100+ students** to improve coding practice efficiency and debugging workflows.

TECHNICAL SKILLS

Languages

- Python
- C++
- SQL
- JavaScript
- HTML/CSS

Frameworks & Tools

- Django REST
- React
- Flask and FastApi
- Git and GitHub
- WebRTC, Twilio

AIML & Databases

- LangGraph
- NLP & Vector Search
- MySQL

ACHIEVEMENTS & LEADERSHIP

YUVAI AI Impact Summit — Grand Finalist

2026

Government of India AI Summit

New Delhi, India

- Selected as a **Top 20 Grand Finalist** among **1600+ global submissions** for building an AI-driven solution addressing real-world challenges.
- Led the **Agent Orchestration Team** to design and implement a **multi-agent AI system** for rural telemedicine infrastructure platform

21st Digital Signal Processing Creative Design Contest (Excellence Award)

2026

Southern Taiwan University of Science and Technology (STUST)

Taiwan

- Received the **Excellence Award** in the International Group category for developing an innovative Digital Signal Processing (DSP) based solution at an international-level design contest.

CERTIFICATIONS

- C++ for Competitive Programming
- DSA using Java (NPTEL)
- SQL (Advanced) - HackerRank
- React JS Certification Course (GeeksforGeeks)
- Design Thinking Practitioner(IBM)
- Team Essentials for AI (IBM)
